Dear Marinus,

PROJECT DIVORCE MICROWAVE - CUSTOMER TRAINING

Over the past years your performance in futhering the Company's objectives under difficult circumstances, can only be termed as exceptional.

However, it is felt that, special commendation is warranted for the highly successful training programme prepared and presented by yourself to our most major customer, Armscor. This was the first training course presented by Messina Electronics in the telecommunications field. Reports from Armscor regarding the quality, quantity and presentation of the training course are extremely positive.

I take this opportunity to thank you, on behalf of Messina Electronics, for your loyal support and to wish you all success for the future.

Yours faithfully
MESSINA ELECTRONICS (PTY) LTD.
